Positive aspects about the course I would like to mention:

- Instructors really know, what they do / teach. They are open for questions and give interesting answers.
- Self-assessment task was very helpful.
- The workbook was very good. Discussing in a group of two people was good. Good communications from Ms. Koch and her co-teacher.
- Very practical workshop. Helpful materials which can be used later.
- Get started to think about yourself, many hands-on tasks, length and number of breaks.
- Two teachers.
- Text-book exercises.
- It helps me to think about myself in details.
